HOW TO SECURE CONTRACTS

THE days when contracts for supplies to public bodies—Government, Municipalities, Urban District Councils, or otherwise—were secured by favour have, happily, gone for ever. Nowadays, competition in the open market ensures that the lowest estimate, consistent with quality, for drugs, disinfectants, chemicals, druggists' sundries, surgical appliances, or whatever it may be, invariably secures the order.

But the men who are responsible for the quality and price to their respective Boards are experts and must necessarily follow the markets very closely, and that is one reason why

THE CHEMIST & DRUGGIST

is subscribed for regularly, and its advertising and editorial pages studied closely week by week by the heads of the Contract and Purchasing Departments at The Admiralty, The War Office, The India Office, The Navy, Army, and Air Force Institutes, The Office of the Crown Agents for the Colonies, The Government Public Health Departments, &c.

Enormous quantities of pharmaceutical, medical and surgical supplies are purchased annually for use in hospitals, infirmaries, asylums, dispensaries, prisons, &c., and in the Health Departments of municipalities and other local Government authorities. In this connection, those who direct or influence the buying and distribution of all such supplies find a weekly perusal of *The Chemist and Druggist* imperative.

For our subscribers include Medical Officers of Health, Superintendents, Governors, Stewards, Pharmacutists, and Directors of the largest and most important Public Health Institutions in all parts of the United Kingdom. The list is much too long to tabulate, but in the metropolitan area alone 40 such institutions subscribe regularly, while in the larger provincial cities, such as Manchester, Liverpool, Birmingham, Glasgow, &c., the number of hospitals, infirmaries, asylums, &c., receiving *The Chemist and Druggist* varies from five to seven according to the size of the place.

Among our subscribers abroad are Directors of Administrative, Trading and Public Health Departments in—

Products of Quality

MALT EXTRACT WITH COD LIVER OIL

AND PLAIN

MALT EXTRACT

Essentials that ensure Success.

TO retain and increase your regular season's trade in Malt Extract with Cod Liver Oil or in plain Malt Extract the products you display to your clientele should embody two outstanding features—dignity and quality. Examine the range illustrated below and you will appreciate our claim that they are far removed from the ordinary kinds in common use, by a happy combination of good drawing, harmonious colouring and high class printing. These products possess the atmosphere required to make new customers and to increase turnover.

Manufacture.

Only the finest English Malted Barley and the purest Norwegian Cod Liver Oil are used by us. Manufacture takes place at our factories at King's Langley, Herts. These have recently been enlarged and represent the last word in equipment, organisation and hygienic conditions. Each stage in the process of manufacture is subject to the most rigid control.

Comparison Proves.

Allow us to quote for your requirements. Apply also for samples and complete range of labels. Submit our Malt and Oil to analysis. Note the high cod liver oil content and how deliciously the taste is disguised. The quality of our plain Malt Extract and Malt Extract with Cod Liver Oil is the highest attainable—yet our prices are competitive with any on the market.

Advertising Service.

The service we render in advertising material is second to none. We are confident that our high grade products will win your admiration and satisfy your customers. Kindly accord us the opportunity to please you.

Many thousands of pounds invested in newspaper space—that's OUR part. And we do it week in, week out ; year in, year out. Always an increase as "Roboleine" forges ahead.

Your part ? Why, to let the mothers see the packages of

THE FOOD THAT BUILDS THE BODY

so that they say, "Why, I've been reading all about that—I'll have a bottle for Willie." That, and the ever-ready "Word in season" are the factors which count in increasing turnover.

Maw's

Page

The Blue Package with the Yellow Label.

When a customer asks you for a packet of Cotton Wool, or Boric Lint, do you hand over your counter a package of which you have reason to be proud, a package which looks well and which contains dressings of assured quality?

Can you take a few packages from your drawers and, in a few minutes, with the help of the display material supplied by the makers, can you build up a window display which will attract attention and bring business?

And do you buy your dressings right? Are they not merely low in price, but as low as possible consistent with a standard of quality that will do you credit? Can you fairly charge a price for them which will yield a good profit and still leave your customer pleased?

These little matters are worth your consideration, for Surgical Dressings are one of the staples of the pharmacist's business, one of the bread and butter lines which sell steadily and consistently and have a big influence on your profits.

Your dressings business will be right if you buy and sell Maw's dressings. You will know whenever you hand your customer the familiar blue packet with the yellow label that both you and he are benefiting by the transaction, and no firmer basis for increased sales can be found than mutual satisfaction.

*Place your trial order for Maw's
Dressings to-day and display them in
your window as soon as they arrive.*

THE PERSONAL TOUCH

IT is the personal touch that counts, and a man-to-man talk is of more value than any amount of correspondence. Moreover, it is much quicker, and is therefore appreciated by those to whom time means money

That is why the business man deals with the PRUDENTIAL whenever he needs insurance of any kind. He knows that this Company has representatives everywhere, and that one of them will call on him at any time and at any place he may direct. No matter where he lives, whether it be at Land's End or at John o' Groats, he can rely on a Prudential Man being there and ready to do business with him on the spot.

The PRUDENTIAL has over 230 District Offices, and over 13,000 Representatives.

A card—or a 'phone call—to any District Office or to the Chief Office will bring a Prudential representative to your door as soon as you may desire.

EMULSION Pastilles

The "Marble" Tin Series

IT pays to display and recommend Emulsion Pastilles in "marble" tins—to associate them definitely with your own pharmacy. The quality of the pastilles themselves is vouched for by many years of consistent popularity. The pack is exceptionally attractive and your customers will appreciate the evident care in presentation which is the outward and visible sign of extra care in preparation. The *minimum* profit is nearly 40% on selling price. In harmony with the display outer illustrated, a striking counter showstand is available with orders for 6 dozen and upwards.

Squire's Pharmacopœias OF THE London Hospitals

NINTH EDITION.

Published by J. & A. CHURCHILL,
7 Gt. Marlborough St., London, W.1.

A systematic comparison of the formulæ of thirty-one of the London hospitals, including the Children's Hospitals and the French Hospital. The formulæ are arranged under the headings of the various preparations so that an immediate comparison may be made between the prescriptions of the different institutions.

The British Medical Journal says—"The value of the book to the medical profession is even greater than that of its predecessor, since it comprises a practical compendium of all the best medical treatments."

The Lancet says—"There can be no question of the practical utility of a book which presents an exhaustive comparison of the pharmacopœias of the London hospitals, for in these institutions the formulæ will be selected for the best reasons which the knowledge of the day can furnish, while their selectors represent leading authorities on all therapeutic questions."

AUSTRALIAN SANDALWOOD OIL

"Some correspondence has shown that this description of sandalwood oil derived from the wood of *Fusanus spicatus* is very largely used medicinally in Australia and other countries. The Committee are of opinion that a monograph on this oil might be inserted in the British Pharmaceutical Codex, so that oil of the quality required by the characters and tests could be ordered for use in Australia and wherever the appropriate authorities considered this variety of oil could usefully replace the more expensive kind obtained from *Santalum album*."

'PLAIMAR' SANDALWOOD OIL

Distilled by Plaimar, Ltd., Perth, West Australia, from West Australian Sandalwood

has always conformed to the Characters and
Tests referred to above.

Stocks are now available of "Plaimar" ESSENTIAL OIL of ARAUCARIA a distinctly new semi-solid aromatic, having a pronounced value as a fixative. This Oil has a Rose odour and contains a percentage of Esters of Geraniol.

The World's Best Hairbrush

means quicker sales and bigger profits for you

Why? Because it has more selling points than any other brush in the world. Because it meets to a greater degree than all others the modern woman's need for deep, penetrating hairbrushing plus absolute cleanliness.

Consider for a moment the strength and toughness of the bristles and the resiliency of the rubber pad in which they are set. Is there any other brush more capable of getting right down to the roots of the hair than the "Klenly" Brush? Consider also the tempting beauty of the various colours and designs.

And this is not all. Both the bristles and the pneumatic pad are white. Because of this the brush is always kept clean; its whiteness instantly betrays any dirt or dust that may come from the hair. The air vent, too, is placed in such a position that it's the easiest thing in the world to clean the brush.

These then are the reasons why you should stock the "Klenly" Hairbrush—why you should take your share of the extra-generous margin of profit that we as the actual manufacturers can afford to allow you.

A STATEMENT OF POLICY

SO much stress is laid on low price by many that the really vital question of Quality is ignored. This never has and never will be our policy. Our first consideration is Quality, and only when that has been attained does the matter of price come in. We apply searching tests for purity and strength to all our products, and this, coupled with modern methods in manufacture, ensure an unvarying high standard. The result has been an increasing demand which has enabled us to produce economically, so that, while our ideal of "Quality" is maintained, we can offer you terms which compare favourably with any others. You are certain of "Quality." We think you may be equally certain of "Price."
